Open Building

A "one of a kind" renovation designed and executed by Jon Greiberg, a painter, sculptor and well-known New York City designer for commercial and residential owners. This unique approximately 1000 square foot loft must be seen to be believed. Sober and learned settings and twenty five feet of windows welcomes you to this incredible home. Every inch of this space has been hand picked and carefully created. A complete description of this renovation is available on request.
