

### Éditions Sous Étiquette

Paying homage to the inventor of the incandescent bulb, Joseph Swan, while updating to LED, 1 Miss Swan fixtures by François Mangeel are intended as lanterns or night-lights. Their beech bases, 7 inches in diameter, sprout glass cones in white, black, or amber. 33-4-77-46-09-31; editionsousetiquette.fr.

### Tempo Luxury Home Collection

Enough about smart phones, Joe Girsberg has moved on to Smart Lights, table lamps that can be specified in practically any color of handblown glass. They take candlebra bulbs and range in height from 17 to 26 inches. 212-465-1246; tempo.luxuryhome.com.

### Rich Brilliant Willing

Bent-plywood arms, attached to a steel central support, make like a tree with Branch, a 70-inch-high floor lamp. Supporting perforated brass or stainless-steel shades, gently filtering LED sources, the arms are offered in a multicolored, orange, or blue powder coat as well as ebonized or natural finishes. Coordinate with a table lamp, chandelier, and sconce. 212-388-9521; richbrilliantwilling.com. circle 414

### Deger Cengiz

Illumination and organization partner with this architect's Dino, a task lamp made of natural wool felt that's biodegradable, renewable, and water-resistant. The gooseneck quickly readjusts an LED's aim, while the container base welcomes desktop essentials or perhaps a plant. Voos, 718-238-8666; voosfurniture.com.
